

Quality Australian Made Product

## Professional Wax Pots

The Elegans range of Professional Wax Pots is of all metal construction. No plastic is used in their manufacture and the wax bowl is of spun alloy. It will not melt or distort during the life of the machine. Should your Professional wax pot ever fail, all components including the element are repairable or replaceable. For safety, each wax pot is fitted with a lid.

### Specifications

Small  
Width 148  
Height 146
